

Day 47 - 90 days of Analytics: Creating a Chart

In today's video, we studied the interface of Power BI and created our first report

The following were mentioned

-To add data to a report, we can

- Import the data from Excel
- Import the data from SQL Server
- Paste data into a blank table
- Or try a sample dataset

-Views in Power BI include

- Report View
- Data View
- Model View

-The Report view is selected by default anytime data is loaded into Power BI.
